
2017 NEMF Collection, Alphabetical Listing

Stratton Mountain, Bondville, VT
July 27 to 30, 2017

Specimens Recorded: 609
Taxa Collected: 571
First Collection (checkmark): 50
New Genera: 17

Agaricus

- bitorquis
- placomyces

Agrocybe

- acericola

Albatrellus

- ovinus

Allocetraria

- oakesian

Amanita

- aestivalis
- amerifulva nom. prov.
- amerimuscaria
- amerirubescens nom. prov.
- atkinsoniana
- bisporigera
- brunnescens
- cattaraugana
- crenulata
- elongata
- flavoconia
- flavorubens
- homolae nom. prov.
- jacksonii
- multisquamosa
- onusta
- rhacopus
- sinicoflava
- solaniolens, cf.
- subcokeri nom. prov.
- submaculata
- vaginata
- variicolor nom. prov.
- velatipes
- wellsii

Antrodia

- heteromorpha

Antrodiella

- semisupina

Apiosporina

- morbosa

Arcyria

- cinerea

Artomyces

- pyxidatus

Ascocoryne

- sp.

Asterophora

- parasitica

Aureoboletus

- roxanae

Auricularia

- americana

Austroboletus

- gracilis
- gracilis var. flavipes

Baeomyces

- rufus

Baeospora

- myriadophylla

Baorangia

- bicolor

Bertia

- moriformis

Bjerkandera

- adusta

Bolbitius

- variicolor
- vitellinus

Boletellus

- chrysenteroides
- russellii

Boletinellus

- meruloides

Boletus

- bicolor (Raddi)
- edulis
- ferrugineus
- luridus
- miniato-olivaceus
- pallidus
- sensibilis
- subvelutipes
- variipes var. fagicola
- vermiculosoides
- vermiculosus

Botryobasidium

- laeve

Bryoria

- furcellata

Bulgaria

- inquinans

Butyriboletus

- brunneus

Callistosporium

- luteoolivaceum

Caloboletus

- roseipes

Calocera

- cornea

Cantharellula

- umbonata

Cantharellus

- appalachiensis
- cibarius

Catinella

- olivacea

Ceratiomyxa

- fruticulosa var. fruticulosa
- fruticulosa var. poroides

Ceriporia

- reticulata, cf.
- spissa

Cerrena

- unicolor

Chalciporus

- piperatus

Chlorencoelia

- sp.

Chlorociboria

- aeruginascens

Chromelosporium

- coerulescens

Chrysomphalina

- chrysophylla

Cladonia

- chlorophaea
- coniocraea
- cristatella
- deformis
- fimbriata
- ochrochlora
- pyxidata
- squamosus
- subtenuis

Clavaria

- fragilis
- fumosa
- zollingeri

Clavulina

- amethystina
- coralloides
- cristata

Clavulinopsis

- aurantiocinnabarina
- corniculata
- fusiformis
- miniata

Climacodon

- septentrionalis

Clitocybe

- clavipes
- fragrans
- gibba
- odora
- phaeoophthalmia
- truncicola

Clitopilus

- prunulus

Collybia

- cirrhata
- tuberosa

Colpoma

- crispum

Coltricia

- cinnamomea
- montagnei
- perennis

Coltriciella

- dependens

Cordyceps

- militaris

Corticium

- roseum

Cortinarius

- annulatus
- armillatus
- bolaris
- caperatus
- corrugatus
- evernius
- incognitus
- iodes
- malicorius
- quercophilus
- rubicundulus
- sanguineus
- scaurus
- squamulosus
- tofaceus
- torvus
- velicopius
- violaceus

Craterellus

- cornucopioides
- ignicolor

Crepidotus

- applanatus
- crocophyllus
- fusisporus var. anomalus
- stipitatus

Cribraria

- mirabilis

Crinipellis

- zonata

Crucibulum

- laeve

Cudonia

- circinans
- lutea

Cyclocybe

- erebia

Cyptotrama

- asprata
- chrysopeplum

Cystostereum

- murrayi

Dacrymyces

- palmatus

Daedaleopsis

- confragosa

Daldinia

- concentrica

Datronia

- mollis

Diatrype

- stigma

Dibaeis

- baeomyces

Didymium

- nigripes

Ductifera

- pululahuana

Echinoderma

- asperum

Elaphocordyceps

- ophioglossoides

Endogone

- pisiformis

Entoloma

- conicum
- flavifolium
- foliomarginatum comb. prov.
- griseocyaneum
- luridum
- rhodopolium
- serrulatum
- strictius
- undatum
- violaceum

Evernia
 mesomorpha

Exidia
 nucleata
 recisa

Exsudoporus
 frostii

Femsjonia
 pezizaeformis

Flagelloscypha
 minutissima

Flavoparmelia
 caperata

Fomes
 fomentarius

Fomitopsis
 pinicola

Fuligo
 candida
 muscorum
 septica

Galerina
 paludosa

Galiella
 rufa

Ganoderma
 applanatum
 lobatum
 tsugae

Gibellula
 leiopus

Gliophorus
 irrigatus

Gloeophyllum
 sepiarium

Gloeoporus
 dichrous

Gloioxanthomyces
 nitidus

Glutinoglossum
 glutinosum

Gomphus
 clavatus

Graphis
 scripta

Guepiniopsis
 buccina

Gymnopilus
 luteus
 penetrans

Gymnopus
 androsaceus
 confluens
 dichrous
 dryophilus
 polyphyllus
 subnudus

Gyroporus
 cyanescens
 purpurinus

Hapalopilus
 croceus
 nidulans

Harrya
 chromapes

Helminthosphaeria
 clavariarum

Helvella
 atra
 crispa
 elastica
 macropus

Hemileccinum
 subglabripes

Hemistropharia
 albocrenulata

Hemitrichia
 serpula

Henningsomyces

- candidus

Hericium

- coralloides

Hohenbuehelia

- angustata
- petaloides

Hormomyces

- aurantiacus

Humidicutis

- marginata

Hydnellum

- concrescens
- scrobiculatum
- spongiosipes

Hydnum

- albidum
- repandum

Hygrocybe

- acutoconica
- cantharellus
- ceracea
- chlorophana
- chlorophana var. aurantiaca
- coccineocrenata
- conica var. conica
- laeta
- miniata
- nitrata
- parvula
- pratensis
- psittacina
- purpureofolia

Hygrophoropsis

- aurantiaca

Hymenochaete

- corrugata

Hymenochaetopsis

- olivacea

Hymenopellis

- furfuracea
- megalospora

Hyphodontia

- arguta

Hypholoma

- radicosum

Hypocrea

- americana
- avellanea
- sulphurea

Hypogymnia

- incurvoides
- physodes

Hypomyces

- armeniacus
- cervinigenus
- chrysospermus
- hyalinus
- lactifluorum
- luteovirens
- melanocarpus

Hypoxyton

- fragiforme
- howeianum
- rubiginosum

Hysterobrevium

- mori

Imleria

- badia

Inocephalus

- lagenicystis
- luteus
- murrayi
- quadratus

Inocybe

- calamistrata
- geophylla
- lanuginosa
- rimosa
- tahquamenonensis
- tubarioides

Inonotus

- glomeratus
- obliquus

Irpex

- lacteus

Jackrogersella

- multiformis

Kretzschmaria

- deusta

Kuehneromyces

- mutabilis

Laccaria

- bicolor
- laccata var. pallidifolia
- longipes

Lactarius

- argillaceifolius
- atroviridis
- camphoratus
- chelidonium var. chelidonium
- cinereus
- croceus
- deceptivus
- deterrimus
- gerardii
- griseus
- hygrophoroides
- imperceptus
- lignyotus
- mucidus
- paradoxus
- psammicola
- pseudoflexuosus
- pyrogalus
- quietus
- quietus var. incanus
- subpurpureus
- subserifluus
- subvellereus
- thynos
- vietus
- vinaceorufescens
- volemus

Laetiporus

- sulphureus

Leccinellum

- albellum

Leccinum

- holopus
- rugosiceps
- scabrum
- variicolor
- versipelle
- vulpinum

Lentinellus

- cochleatus
- ursinus

Lentinus

- levis
- suavissimus

Lenzites

- betulina

Leocarpus

- fragilis

Leotia

- atrovirens
- lubrica

Lepiota

- clypeolaria

Leptonia

- foliomarginata, cf.

Leucogloea

- compressa

Leucopaxillus

- laterarius

Lobaria

- pulmonaria

Lophodermium

- aucupariae
- pinastri

Lycogala

- conicum
- epidendrum
- flavofuscum

Lycoperdon

- perlatum

Marasmius

- capillaris
- cohaerens
- lachnophyllus
- oreades
- pulcherripes
- rotula
- siccus
- strictipes

Megacollybia

- rodmanii

Melanohalea

- septentrionalis

Melanophyllum

- haematospermum

Microglossum

- rufum
- viride

Micromphale

- perforans

Mollisia

- sp.

Mutinus

- caninus
- ravenelii

Mycena

- acicula
- alcalina
- alphitophera
- citrinomarginata
- corticola
- haematopus
- leaiana
- polygramma
- purpureofusca
- rubromarginata
- rutilantiformis
- stylobates
- vulgaris

Mycetinis

- scorodonius

Mycoblastus

- sanguinarioides

Nectria

- coccinea var. faginata

Nectriopsis

- violacea

Neocudoniella

- albiceps
- radicella

Neofavolus

- alveolaris

Neolentinus

- suffrutescens

Ophiocordyceps

- gracilis
- stylophora
- variabilis

Orbilina

- sp.

Otidea

- alutacea
- leporina
- onotica

Oxyporus

- populinus

Panaeolina

- foenisecii

Panellus

- stipticus

Parmelia

- sulcata

Patinellaria

- sanguinea

Paxillus

- involutus

Peltigera

- aphthosa
- canina
- didactyla

Peniophora

- incarnata

Perenniporia

- medulla-panis
- subacida

Peziza

- atrovirens
- succosa
- varia

Phaeocalicium

- polyporaeum

Phaeohelotium

- epiphyllum

Phaeolus

- schweinitzii

Phaeophyscia

- rubropulchra

Phallogaster

- saccatus

Phanerochaete

- sordida

Phellinus

- gilvus
- igniarius
- laevigatus

Phellodon

- confluens
- niger

Pholiota

- granulosa

Phylloporus

- leucomycelinus
- rhodoxanthus

Physalacria

- inflata

Physarum

- polycephalum
- pusillum
- roseum
- virescens

Physcia

- dubia
- stellaris

Piptoporus

- betulinus

Platismatia

- glauca
- tuckermanii

Pleurotus

- dryinus
- pulmonarius

Plicaturopsis

- crispa

Pluteus

- cervinus var. cervinus
- chrysophlebius
- flavofuliginus
- granularis

Polyporus

- craterellus
- squamosus
- varius

Porodaedalea

- pini

Poronidulus

- conchifer

Porothelium

- fimbriatum

Porphyrellus

- porphyrosporus

Porpidia

- albocaerulescens

Porpoloma

- umbrosum

Postia

- caesia

Psathyrella

- conissans

Pseudevernia

- cladonia

Pseudochaete

- tabacina

Pseudohydnum

- gelatinosum

Pseudomerulius

- aureus
- curtisii

Psilocybe

- caerulipes

Psilolechia

- lucida

Pulveroboletus

- ravenelii

Punctularia

- strigosozonata

Pycnoporus

- cinnabarinus

Radulomyces

- copelandii

Ramaria

- flaccida
- gracilis
- rubella
- stricta

Ramariopsis

- kunzei

Resupinatus

- applicatus

Retiboletus

- griseus
- ornatipes

Rhodocollybia

- maculata

Rhodocybe

- mundula

Rhodofomes

- cajanderi

Rickenella

- fibula

Roridomyces

- roridus

Royoporus

- badius

Russula

- albonigra
- aquosa
- brevipes var. acrior
- claroflava
- compacta
- crustosa
- densifolia
- dissimulans
- fragilis
- granulata
- grata, cf.
- mariae
- modesta
- ochroleuroides
- paludosa
- silvicola
- variata

Sarcodon

- joeides
- scabrosus

Sarcodontia

- setosa

Schizophyllum

- commune

Scleroderma

- citrinum

Scutellinia

- pennsylvanica
- scutellata
- setosa
- umbrarum

Sebacina

- concrescens

Simocybe

- serratula

Skeletocutis

- alutacea
- nivea

Spathularia

- flavida
- velutipes

Sphaerobolus

- stellatus

Sporophagomyces

- sp.

Steccherinum

- fimbriatum
- ochraceum

Stereopsis

- vitellina

Stereum

- complicatum
- ostrea
- striatum
- subtomentosum

Strobilomyces

- confusus
- strobilaceus

Suillus

- americanus
- granulatus
- placidus
- punctipes
- spraguei
- subaureus

Sutorius

- eximius

Syzygospora

- mycetophila

Taphrina

- alni

Tapinella

- atrotomentosa
- panuoides

Tatraea

- macrospora

Tetrapyrgos

- nigripes

Thuemenella

- cubispora

Trametes

- gibbosa
- ochracea
- pubescens
- versicolor

Tremellodendron

- schweinitzii

Trichaptum

- abietinum
- biforme

Trichia

- favoginea

Trichoderma

- alutaceum
- harzianum
- pencilliatum

Trichoglossum

- walteri

Tricholoma

- aurantium
- magnivelare
- saponaceum

Tricholomopsis

- decora
- rutilans

Turbinellus

- floccosus

Tylopilus

- felleus
- porphyrosporus
- rubrobrunneus
- violatinctus

Tyromyces

- chioneus

Umbilicaria

- mammulata

Usnocetraria

- oakesiana

Vascellum

- pratense

Vibrissea

- truncorum

Vulpicida

- pinastri

Xanthoconium

- affine

Xanthomendoza

- fallax

Xanthoria

- parietina

Xenasmatella

- vaga

Xerocomellus

- chrysenteron
- intermedius

Xerocomus

- hortonii
- spadiceus

Xeromphalina

- campanella
- caudicinalis
- kauffmanii

Xylaria

- cornu-damae
- cubensis
- hypoxylon
- longipes
