

MAINE MYCOLOGICAL ASSOCIATION
University of Maine Augusta, Augusta, MAINE
7 OCTOBER 2023

It had been raining, and began to rain while we walked. No identification table was set up; the list is from group discussions as we walked. Many mushrooms were too soggy to identify.

Amanita citrina
Armillaria ostoyae
Cantharellus cibarius
Clavulina coralloides (crisata)
Cortinarius caperatus
Craterellus fallax
 tubaeformis
Hypomyces lactifluorum
Kuehneromyces mutabilis
Laccaria laccata
 ochropurpurea
Lactarius chrysorrheus
 deceptivus
Leccinum aurantiacum
Russula brevipes
 silvicola
Suillus spraguei (pictus)
Tricholoma magnivelare
